

Client Responsibilities

Important – Please Read

1. I need to be at the jobsite to start and finish the job to verify the scope of the work and product correctness. If I am unable to be there I will make other arrangements to verify job details.
2. I need to provide paint for shoe molding or baseboard if applicable.
3. I am responsible for removing and resetting any toilets, pedestal sinks, dishwashers, washers, and dryers if applicable. I am also responsible for covering and protecting any stainless steel appliances during the demolition process. If I am unable, it is my responsibility to arrange for a professional to do so. The River City Flooring team will not move or cover any of these items.
4. I recognize this is light construction and is going to be dusty. Any covering of furnishings or walls need to be done by me. I understand the installation crews will be undercutting door jams and fireplace hearth's which will produce dust along with any demolition and removal of existing floor coverings.
5. I am responsible for moving any and all furniture. If I am unable, I can inquire with the River City Flooring team about a referral for a professional moving company.
6. I have read and fully understand the Terms and Conditions, Pre-Installation Guide and Hampton Hardwoods Limited Warranty. If I do not understand any of the language or descriptions mentioned it is my responsibility to seek clarification.
